

Hose trolley type SW1

Easy to handle and approved for the capacity of hose reel STKi2 20 and STKi2 40 as well as for usage of an adapter plate of hose reel STKi2 50 and STKi20 60.

Available materials:

- SW1 - Stainless steel AISI 304, especially in hygienic areas, abattoirs, meet factories, dairies, breweries, fast food industry

Scope of delivery:

In addition to the hose trolley you can order the appropriate hose reel, see table on page 27, as well as a tray. Basically it is including the reinforcing brace at the bottom.

Characteristics:

- Reliable steel pipe frame, folding rails guarantee easy transportation
- Solid rubber wheels with grey, abrasion-proof tyres, which do not leave any black marks.
- The same applies for the front rubber buffer.
- The hose trolley can be equipped with an optionally tray to hold accessories. The bottom of the tray is perforated, wet equipment can drip off easily.
